

RIGTEK
ROPE ACCESS

Rigtek is an industrial rope access company providing high quality service to a wide range of construction and remedial work.

Rope access is a safe, fast and cheapest access method to reach and work in difficult access area.

SAVFA
systems

All our technicians are trained to industrial Rope Access trade Associate. (Australian standards).

Our reputation is mostly based on remedial work. We are specialist in difficult access repairs & maintenance

Repairs can be fixed using our rope access techniques without the use of a scaffold, saving time and money.

Our focus is on Your Satisfaction
